PROFESSIONAL EXPERIENCE

FOUNDER and CEO of “COMICS IN THE ROOM”

Mar 2022 - Jan 2024

Gained skills

- Organized Open mics
- Organized Online Ticketed Shows
- Hosted Open mics
- Wrote and Edited Scripts

At 16, I founded Comics in the Room, a production company that organizes open mic events and ticketed shows. Through this experience, I learned to improvise quickly, perform under pressure, and adapt to last-minute changes—skills that are valuable in engineering environments. I also led a team and offered internships within the organization, strengthening my leadership and problem-solving abilities.

PERFORMED OPEN MICS

Jan 2022 - feb 2025

Over the past three years, I have participated in **stand up comedy** open mic events, which have honed my skills in improvisation, writing, and humor. During this time, I learned how to infuse humor into standard scripts and mastered the art of storytelling. This experience has enabled me to conquer my stage fright; I can now confidently take the stage without any prepared material and entertain an audience for a full hour.

SUMMARY

I've been performing stand-up comedy open mics for three years, developing a strong sense of communication and audience engagement. As the founder of Comics in the Room (CITR), I've managed high-pressure events with precision. Combined with my technical foundation in Python, C, and emerging technologies, I bring creativity, adaptability, and problem-solving skills to tech-driven environments.

TECHNICAL KNOWLEDGE

- **Next Gen Technologies:** Completed a course on Next Gen Technologies by Infosys Springboard, gaining insight into emerging technologies and their real-world applications.
- **Programming Fundamentals using Python:** Completed Programming Fundamentals using Python – Science Graduates – Foundation Program, building a strong base in logic, syntax, and core programming principles.
- **C Programming:** Learned basic concepts of C programming language, including data types, syntax, and control structures through hands-on practice and structured learning modules.

EDUCATION

- **B-Tech First Year Graduating** Noida Institute of Engineering and Technology 2024- 2028
- **Intermediate** Central Board of Secondary Education (C.B.S.E), 2021-2023 Percentage: 74.4%
- **Matriculation** Central Board of Secondary Education (C.B.S.E), 2021 Percentage: 91.6%

SKILLS

- Knowledge of Python and C programming
- Familiar with emerging technologies
- Able to adapt quickly and solve problems
- Experienced in organizing and hosting live events
- Capable of leading a group

STRENGTH

- Level headed
- Persistent
- Addaptable
- Hardworking

LANGUAGE

- Hindi
- English
- German
